- Back**
 - Go back to the previous screen
 - Close the on-screen keypad, a dialog box, an options menu, or the Notification panel
- Home**
 - Go to the Home screen
 - Press and hold to open a window showing your most recently used applications
- Menu**
 - Open a list of options available in the current screen or application

Set up your phone**What is Android™?**

Android is your phone's operating system. Since it's developed by Google™, your phone is preloaded with several Google™ services, such as Google Maps™ and Google™ web search. To use some of the services provided by Google™, you need a Google account. With a Google account you can access Android Market™ – an application store providing both free and paid applications for easy download to your phone.

What is different about Android?

Android™ is an open system, which means that you're not limited to using applications and services from only one provider.

Google™ account

Use Gmail™ to send emails, Google Talk™ to chat with friends, and Android Market™ to download applications.

To add an account

- 1 From your Home screen, tap .
- 2 Tap **Settings** > **Accounts & sync** > **Add account**.
- 3 Tap the account type you want to add and then follow the registration wizard.

Basic settings

The first time you start your phone, a setup guide explains basic phone functions and helps you enter essential settings. You can also access the setup guide later.

To access the setup guide manually

- 1 From the Home screen, tap .
- 2 Find and tap **Setup guide**.

Transferring contacts to your new phone

Transferring contacts to your new phone can sometimes be complicated, but help is available. You can transfer contacts from several phone brands, including iPhone, Samsung, HTC and Nokia.

You need:

- An Internet-connected PC running Windows®
- A USB cable for your old phone
- A USB cable for your new Android™ phone
- Your old phone
- Your new Android™ phone

! If you don't have access to all of the items listed above, go to www.sonymobile.com to find out about other ways to transfer your contacts.

Get started transferring your contacts

Use the PC Companion program to transfer your contacts. It's free, and the installation files are already saved on your new phone. PC Companion also offers a range of other features, including help to update your phone software.

To install PC Companion

- 1 **New phone:** Turn on your new Android™ phone and connect it to a PC using a USB cable.
- 2 **New phone:** Tap **Install** to install PC Companion on the PC.
- 3 **Computer:** If a popup window appears, select **Run Startme.exe**. In the new popup window that appears, click **Install** to start the installation and then follow the instructions to complete the installation.

To transfer contacts to your new phone using PC Companion

- 1 Make sure that PC Companion is installed on your PC.
- 2 Open the PC Companion program on the PC, then click **Contacts Setup** and follow the instructions to transfer your contacts.

Transferring data from another phone

Your phone does not have a removable memory card. Instead, it has a substantial amount of internal storage and you can move files to and from this internal storage using the file explorer application on a computer or the PC Companion computer application. For example, you can transfer files from the memory card of another phone to your new phone's internal storage and vice versa.

To transfer data to your phone's internal storage from another phone

- 1 Using a supported USB cable, connect the phone containing the memory card to the PC.
- 2 Using Windows Explorer, drag and drop the desired content from the memory card to a folder on your computer.
- 3 Unplug the USB cable from the computer and phone.
- 4 Using a supported USB cable, connect your new phone to the computer. The PC Companion application opens.
- 5 Use the PC Companion application to drag and drop the content from the folder on your computer to your new phone's internal storage.

Finding your way

Home screen

Your phone Home screen is the equivalent of the desktop on a computer. You can customise your Home screen with widgets, shortcuts, folders, themes, wallpaper and other items. The Home screen extends beyond the regular screen display width, so you need to flick left or right to view content in one of the screen's four extensions.

The items in the bar at the bottom of the screen are always available for quick access.

To go to the Home screen

- Press .

To browse the Home screen

- Flick right or left.

To change your Home screen wallpaper

- 1 From your Home screen, press .
- 2 Tap **Wallpaper**, then select a wallpaper.

Widgets

Widgets are small applications that you can use directly on your Home screen. For example, the Music player widget allows you to start playing music directly.

Application screen

The Application screen, which you open from your Home screen, contains the applications that come installed with your phone as well as the applications you download.

The Application screen extends beyond the regular screen width, so you need to flick left and right to view all content.

To open the Application screen

- From your Home screen, tap .

To open an application

- From your Home screen or the Application screen, tap the application.

Applications

An application is a phone program that helps you perform a task. For example, there are applications to make calls, take photos and download more applications.

Status and notifications

The status bar at the top of your screen shows what's going on in your phone. For example, new message and calendar notifications appear here.

A notification light also gives you battery status information and some notifications. For example, a flashing blue light means there is a new message or a missed call. The notification light may not work when the battery level is low.

Checking notifications and ongoing activities

You can drag down the status bar to open the Notification panel and get more information. For example, open a new message or view a calendar event from the Notification panel. You can also open running applications, such as the music player.

To open the Notification panel

- Drag the status bar downwards.

Phone settings menu

View and change your phone settings from the Settings menu.

To access the phone settings

- 1 From the Home screen, tap .
- 2 Tap **Settings**.

More basics

Calling

To make a call by dialling

- 1 From your Home screen, tap .
- 2 Find and tap **Phone**.
- 3 Enter the number of the recipient and tap **Call**. To delete a number, tap .

To end a call

- Tap **End call**.

To answer a call

- Drag  to the right across the screen.

Multimedia and text messaging

To create and send a message

- 1 From your Home screen, tap , then find and tap .
- 2 Tap .
- 3 To add a recipient, tap , then find and mark the checkbox next to the recipient name. To add more than one recipient, mark the checkboxes for the desired recipients. You can also enter the full number in the search field manually, then tap **Add**.
- 4 When you are finished adding recipients, tap **Done**.
- 5 Tap **Write message** and enter your message text.
- 6 If you want to add a media file, tap  and select an option.
- 7 To send the message, tap **Send**.

Legal information

To view the CE mark

- Remove the battery.
