

Domain name application form

Simply fill in the details below and return to us in the envelope provided

1. Your details

Login name Contact name

Name of domain

Type of domain **NZ based domains** .co.nz .net.nz .gen.nz .org.nz **USA based domains** .com .info .biz .net

Have you already registered the domain name? Please complete the relevant section

NO	YES	
Name of applicant	<input type="checkbox"/> NZ based domain (eg .co.nz)	<input type="checkbox"/> US based domain (eg .com)
Note: If you are applying on behalf of a Company or Trust, use its name, not your own. Applicant will become the legal owner of the domain name.	What is your domain name's UDAI code?	Registrar's website
Contact phone number		ID/ Login
Contact email address		Password
Postal address		
..... Post code		

2. Mail hosting List the email addresses that you want. These will be set up as separate mailboxes to the main login.

.....@yourdomain@yourdomain Note: If you are the main account holder, do not request a separate email address for yourself (you can use any address '@yourdomain'). Any mail sent to an address other than those listed here will automatically be directed to your main login mailbox. Refer overleaf for details.

.....@yourdomain@yourdomain

.....@yourdomain@yourdomain

3. Virtual hosting If your website is on Vodafone's homepage server, we can link your site to your domain name eg: www.yourdomain.co.nz

Do you require virtual hosting with Vodafone?

Yes No

Note: If your webpages are NOT on ihug's homepage server, we can point your domain name to another provider's web server. If you wish to do this, please provide the IP address for that provider's web server.

IP address of provider's web server

4. Fees (Billed to your next Vodafone invoice.)

	NZ domain names		US domain names		OR Vodafone business pack <input type="checkbox"/> \$19.95 per month
	Set up fees	Monthly fees	Set up fees	Monthly fees	
Annual registration fee*	\$44 per year	-	\$87.50 per year	-	Pack includes: Static IP, 60 MB webspace, 20 email addresses, specialised support, .nz Domain, virtual hosting, annual domain registration fee. Price does not include virtual hosting and domain set up fees.
Domain name hosting (includes email hosting)	\$10	\$7.00	\$55	\$11.25	
Virtual hosting	\$25	\$11.25	\$25	\$11.25	

*Future domain name registration fees will be invoiced on your monthly Vodafone invoice a minimum of 45 days prior to the anniversary of the domain name.

5. Authorisation

I agree to pay all charges (initial and ongoing) relating to this domain and/or hosting services. I understand that by using this service, I have agreed to be bound and will abide by the Terms and Conditions that appear on Vodafone's web site at www.vodafone.co.nz/legal. If this application is on behalf of a business, I agree that I have the requisite authority to enter into contractual relations on behalf of this company with Vodafone. I am over 18 years old. I understand that I must provide Vodafone written notification if I intend to move my domain name from the Vodafone servers. I understand that I will be liable for all fees until written notification is received to cancel this service.

Signed Date

PLEASE NOTE: If your application is for a NEW domain, do not start using or advertising your domain name until you have received confirmation from the domain registry that your registration has been accepted. Fees will be charged to the above Vodafone account.

Domain names with Vodafone

Vodafone offers a low-cost domain name service that lets you:

- Have a fully personalised email address
e.g. mary@smith-family.co.nz
- Have a 'www' address for your webpages
e.g. www.smith-family.co.nz

Getting your own domain name is much easier than you think. Simply fill out the form overleaf and we'll set everything up for you. The domain name service is currently only available to customers with Vodafone internet accounts.

Registering

To get a domain name you first need to find a name that isn't currently being used. Most customers select a '.co.nz' or '.com' domain name but if your preferred name is already taken you might want to try one of the other domain types shown on the application form overleaf.

Domain name hosting

Once you have registered a domain name, we will be able to manage it on your behalf. Domain name hosting enables you to use email addresses that are linked to your domain name.

You get to choose what email addresses you want e.g. the Smith family could have bob@smith-family.co.nz, mary@smith-family.co.nz and tim@smith-family.co.nz.

Mail for each address you set up will be automatically redirected to a corresponding Vodafone mailbox. Here's a typical set up:

Domain email address	Destination mailbox
mary@smith-family.co.nz	smith1@vodafone.co.nz
tim@smith-family.co.nz	smith2@vodafone.co.nz
All other mail sent to: @smith-family.co.nz	smith@vodafone.co.nz (main login)

In the example above, Mary would retrieve her email by logging into her standard email program using the login 'smith1' and her assigned Vodafone password.

Any mail sent to '@smith-family.co.nz' that isn't addressed to a nominated person gets automatically re-directed to the mailbox used by the main account holder. This is a nice bonus if you're the main account holder because you can use any domain email address you like and still get the mail in your mailbox. e.g. an email sent to roger@smith-family.co.nz will automatically be re-directed to the Vodafone mailbox 'smith'.

Once your application has been processed, we will provide you with a full summary showing the domain email addresses you've requested and their corresponding logins and passwords.

You get 5 free email addresses with the service – these are in addition to the addresses already provided with your standard internet plan.

Virtual hosting

If you have webpages on Vodafone's homepages server, our virtual hosting service will connect your domain name to these webpages and allow users anywhere in the world to access your site using your domain name e.g. if your domain name is 'smith-family.co.nz', your web pages will be able to be viewed at: www.smith-family.co.nz

If you have your webpages hosted elsewhere (e.g. by the YellowPages), and don't wish to transfer your website to our homepages server, we can point your domain name to your web provider's web server if you provide us with their IP address.

Transferring to Vodafone

Swapping the hosting of your domain name over to Vodafone is fairly straightforward and we will arrange for this happen on your behalf. You will be required to prove that the domain name is your property by providing the domain name's UDAI code (NZ based domains) or the domain's login and password (for US based domains)

If you don't know these codes/passwords, please contact your current domain provider or domain registrar.
