

## Using MusicStation™...

### Home

Unlimited access to your favourite music, direct to your phone. Browse, discover and play music using the Playlists, Artists, Albums and Tracks menus.

The Charts menu is where you can download tracks from the latest music charts.

Want to play something specific? Simply choose Search.

The Options menu lets you configure MusicStation™ and set your preferences.

### Buzz

Buzz is MusicStation's™ community area. Read the latest music news and share music and playlists with other users, find people with similar music tastes - and see what the coolest users are listening to.

Create a Buzz profile, which can be visible to other users. Along with your name and icon, your profile shows your star-rating, "listens" to your shared playlists and number of friends.

### Lineup

The Lineup screen shows your current playlist - all the tracks you've already queued to be played.

New tracks download over the mobile phone network automatically in the background and appear in grey until available. With MusicStation™ you can play the world's music, wherever you are. There are no hidden charges for downloads\*.

### Playing

The Playing screen shows the track currently playing. Press More to rate this track or add it to one of your playlists.

## Play...

MusicStation™ gives you total music freedom.

Explore your favourite music, on the move, direct to your phone.

The Get new option in Playlists, Artists, Albums and Tracks gives you instant access to your favourite music. Download whatever music you want, on the move. Don't miss the You might like section which recommends tracks based on what you've played before. With Search you can find a particular artist, album or track. Download whatever you want at the touch of a button.

You can add an entire album or playlist to the Lineup. Tracks that have not fully downloaded yet will appear in grey.

The details of the current track will always be displayed on the Playing tab. Use the joystick button to pause or restart a track at any time.

Also check out the More menu which lets you choose different options such as Play Now or Play ASAP.

## Build...

You can build your own playlists by selecting Add to Playlist on the More menu. Later, you may want to share your playlist with other MusicStation™ users.

So why not try MusicStation™ today and start building your own playlists?
