

# Vodafone Mobile Co-Location Performance Report For September 2009 (Public Version)

## Introduction

The aim of this report is to provide visibility to our customers on the performance for their mobile co-locate applications.

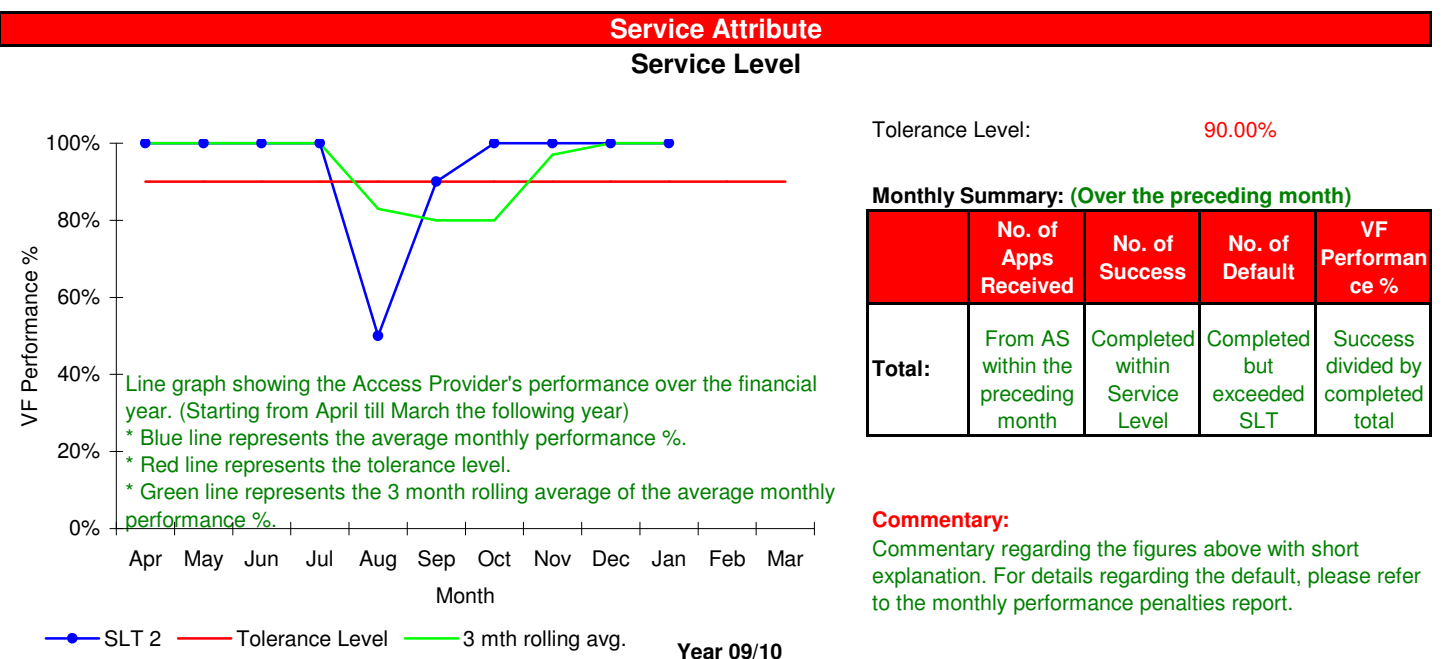

## Executive Summary

There are six active applications in process under the Mobile Co-Location. Three in desktop study stage, one in the progress of obtaining consents, one in pre-build stage and the last one is in build stage.

## Further Information

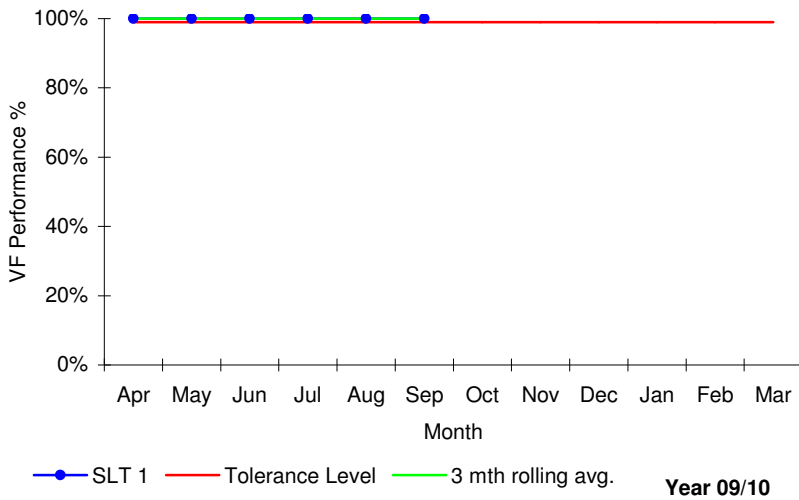

If you have queries, or suggestion about how we can enhance this report, please email your Vodafone Mobile Co-Location service manager.
