3.3 Your Access will be installed first. In some cases, characteristics of your Access line(s) may mean we are unable to supply you with Office Net Unlimited+ at a particular Site. If this occurs, we will investigate alternative access with you.

7. Fixed Line Broadband Services

- 7.1 **Traffic Management:** we apply traffic management policies to avoid congestion. The traffic management policies of other network operators may also impact you.
- 7.2 Our **Internet Acceptable Use Policy** applies to your use of Office Net Unlimited+. You can find this policy on our website at www.vodafone.co.nz, and it is updated from time to time. We may suspend your Service with immediate effect if you do not use Office Net Unlimited+ in accordance with this policy.
- 7.3 **Speed:** Statements about the speed of your Fixed Line Broadband Service are based on theoretical maximums and are not guarantees of continuous speed. The actual speed that your broadband connection can achieve will depend on a number of factors which may include: your equipment (including your computer and Wi-Fi capability); your internal and external premises wiring; your Access Type; the distance of your premises from the exchange; New Zealand and overseas networks; internet traffic congestion; other environmental factors; how many other people are using it at the time.
- 7.4 **Performance:** Your Access to your Fixed Line Broadband Service and the available bandwidth is shared with other broadband users. The performance of your Fixed Line Broadband Service may vary from time to time where there is above average broadband traffic over the network.
- 7.5 **Tuning:** changes in the environment impacting on our network and your premises can alter the electrical interference encountered, and cause unwelcome error rates or even instability. Because of this, we may tune your Fixed Line Broadband Service on a regular basis. The speed and performance of your Fixed Line Broadband Service may change as a result of these environmental changes and our tuning of the Service.

8. Using Office Net Unlimited+

- 8.1 In addition to our Business Terms, you may not use Office Net Unlimited+:
- (a) for auto-dialling, continuous call forwarding, telesales, contact centres, multiple simultaneous calling or any other activity that we consider to be non-standard usage; or
 - (b) for resupply, resale, onsale or any other supply to a third party (whether in whole or in part).
- 8.2 We may decline to supply you with Office Net Unlimited+, or suspend or terminate your Office Net Unlimited+ service (in whole or part) if we consider that your use or a User's use of your Office Net Unlimited+ Service is not in accordance with paragraph 8.1 above.
- 8.3 Your Office Net Unlimited+ Service is reliant on mains power. Disruption of power will affect your Office Net Unlimited+ Service. We are not liable for any service failure you suffer as a result the services being unavailable or interrupted due to a disruption to your power. In the event of power outage, connection to Emergency Services (111) will NOT BE POSSIBLE. Please ensure you have an alternate means of contacting Emergency Services in case of mains failure.
- 8.4 Office Net Unlimited+ may not be used for Alarm Line Monitoring or as an emergency telephone service for locations such as elevators.
- 8.5 Office Net Unlimited+ Fixed Line Calling Services share the broadband connection. Calls across your Fixed Line Calling Service may decrease the speed of your Fixed Line Broadband Service for the duration of the call.
