7.2 **Traffic Management:** we apply traffic management policies to avoid congestion. The traffic management policies of other network operators may also impact you.

7.3 Our **Internet Acceptable Use Policy** applies to your use of Office Net Unlimited. You can find this policy on our website at www.vodafone.co.nz, and it is updated from time to time. We may suspend your Service with immediate effect if you do not use Office Net Unlimited in accordance with this policy.

7.4 **Speed:** Statements about the speed of your Fixed Line Broadband Service are based on theoretical maximums and are not guarantees of continuous speed. The actual speed that your broadband connection can achieve will depend on a number of factors which may include: your equipment (including your computer and Wi-Fi capability); your internal and external premises wiring; your Access Type; the distance of your premises from the exchange; New Zealand and overseas networks; internet traffic congestion; other environmental factors; how many other people are using it at the time. In really good conditions on Office Net Max, we expect you'll get

download speeds of 700-900Mbps and upload speeds of 400-450 Mbps.

7.6 **Tuning:** changes in the environment impacting on our network and your premises can alter the electrical interference encountered, and cause unwelcome error rates or even instability. Because of this, we may tune your Fixed Line Broadband Service on a regular basis. The speed and performance of your Fixed Line Broadband Service may change as a result of these environmental changes and our tuning of the Service.

8.3 Your Office Net Unlimited Service is reliant on mains power. Disruption of power or broadband service will affect your Office Net Unlimited Service. We are not liable for any service failure you suffer as a result the services being unavailable or interrupted due to a disruption to your power or broadband. **In the event of power or broadband outage, connection to Emergency Services (111) will NOT BE POSSIBLE.** Please ensure you have an alternate means of contacting Emergency Services in case of mains or broadband failure.
