Effects on other services	Where you have voice calling over broadband Your broadband requires mains power to operate. If power is not available (e.g. during a local power outage) the broadband, and any services which run over it including voice calling, including telephone calls to Emergency 111 services, may stop working unless you have battery backup in your home. Services that require a traditional fixed phone line to work, such as monitored medical or home alarms, fax machines, or the interactive features of Sky Digital are incompatible with voice calling over broadband. Vodafone recommend checking with your provider if you have any existing phone dependent services.
Other charges	Additional charges may apply for items such as non-standard installations, additional in-home technician work performed at time of connection etc, or if you do not return the TV recorder. For more information visit vodafone.co.nz/broadband Local and National landline calls are included in the calling bundle for up to two hours at any time. Calls in excess of the two hour per call cap will be charged on a per minute basis thereafter in according with your calling plan.
