Traffic Management	Our policy is to provide you with the best broadband experience possible, so we won't slow down or throttle your connection. However, in some circumstances (such as in the unlikely event of a network attack) we may be required to take reasonable action to protect our customers and effectively manage our network.									

Fair Use	Vodafone does not have a fair use policy for VDSL. Note that all broadband packs (including the Unlimited Broadband Pack) are for standard residential use only and are not to be used for commercial types of activity or purposes. Non-residential, commercial purposes will include (but is not limited to) e.g. selling bandwidth to third parties or running an Internet Service Provider.
Effects on other services	VDSL – Voice calling over broadband Your broadband requires mains power to operate. If power is not available (e.g. during a local power outage) the broadband, and any services which run over it including voice calling, including telephone calls to Emergency 111 services, may stop working unless you have battery backup in your home. Services that require a traditional fixed phone line to work, such as monitored medical or home alarms, fax machines, or the interactive features of Sky Digital are incompatible with voice calling over broadband. Vodafone recommend checking with your provider if you have any existing phone dependent services.
Other charges	Additional charges may apply for items such as non-standard installations, additional in-home technician work performed at time of connection etc, or if you do not return the TV recorder. For more information visit vodafone.co.nz/broadband Free calls to national landlines are zero-rated for up to two hours at any time. Calls in excess of the two hour per call cap will be charged on a per minute basis thereafter in accordance with your calling plan.
